

MDP 237 - Leadership Certificate Program

Organizations throughout the federal, state and local levels has discovered long ago that identifying and growing in-house leadership talent ensures strategic focus, consistency in mission, evolutionary development of critical intellectual property, and efficient use of resources.

The value of year-over-year organizational learning, resulting in efficiency and synergistic growth, is optimized when key leaders have experience and history with the agency, its technologies, customers and markets.

This 18-day non-consecutive Leadership Certificate Program is for individuals who are talented in their field, and have strong project management skills, but have not yet developed the expertise necessary to move into and succeed in leadership and management positions. Subjects covered include:

- Communicating with influence
- Understanding and managing interpersonal and organizational issues
- Leading and managing successful teams
- Conducting corporate organizational assessments
- Designing organizations for optimizing operational effectiveness and efficiency
- Creativity in Leadership
- Leading and Managing Change
- Advanced Leadership

Online Leadership Certificate Programs

These online programs are for human resource and service manager professionals looking to increase their skills and move into leadership roles within their organizations. While these online programs are asynchronous, they are instructor facilitated. Each track (Human Resource and Service Management) includes 5 required courses; each course runs 6-8 weeks and as many as 2 courses can be taken simultaneously.

MDO 223 - Human Resource Leadership Certificate

- Leadership
- Principles of Management
- Human Resource Management
- Organizational Behavior
- Management of Diversity

MDO 224 – Service Management Leadership Certificate

- Leadership
- Principles of Management
- Service Management
- Sales Management
- Consumer Behavior
